("Mountfield" or the "Company")

### Refurbishment Contracts Win

The Directors are pleased to announce that the Group subsidiary, Mountfield Building Group Limited, has been instructed by a longstanding client, a leading global communications provider, to undertake works on four of its sites in the South East of England.

The total value of the new work is approximately £1m and comes on top of the orders received during 2013 from the client for property refurbishment works totalling in value approximately £300,000.

Graham Read, Chief Executive Officer, commented:

"We see these contracts wins as further evidence of our long-existing clients returning to regular capital expenditure programmes and calling on contractors with whom they have worked successfully in the past to undertake their work."
